BUSINESS PRINT SOLUTIONS

COMPETITIVE PRICES | HIGH QUALITY | FAST TURNAROUND

ABOUT US

Sphere UK are one of Cheshire's most innovative and immensely respected printers. Our purpose-built site in Macclesfield houses some of the most advanced print technology available in the UK today.

We specialise in litho, digital print and P.O.S. and we are in a unique position to provide a complete range of commercial print services. From business stationery to lavish corporate brochures we have the same wholehearted commitment to all our clients' requirements. Our highly skilled team will produce your print to the highest standard, on time, every time, whether it be an exclusive bespoke copy or large volumes.

Our expertise, along with your creativity, ensures that every brochure, leaflet, folder, mailer or poster we print is vibrant and pin sharp. Our stringent colour management system ensures that our work is produced to the highest standards, whether it is printed on coated or uncoated stocks, litho or digitally.

LITHOGRAPHIC PRINTING

For over 20 years Sphere UK has taken pride in the quality of the work produced. With state of the art Heidelberg machinery in house and a fully automated Heidelberg Five colour press, we can provide an even higher standard of printed materials in less time and at more competitive prices than ever before.

Sphere UK recognise that customers' needs, and our working environment, are constantly changing - we are continually re-investing in the latest equipment, so that we only deliver the best to our valued customer base.

Our highly trained and skilled printers have extensive experience operating a wide range of printing machinery that will suit all of your print requirements. They are readily available to discuss your needs and to make sure you consistently receive the best possible product at the most competitive price.

DIGITAL PRINTING

Digital printing is a modern method of printing using a digital based image to print directly onto a wide range of paper stocks.

For smaller quantities, but no compromise in colour or quality, our digital print service is readily available. With no need for plate-making, digital print is perfect for 'smaller runs' and upwards.

We can deliver printed items quicker and to your standard from artwork supplied by you. Touch up and re-organising your print is also easily done with the state of the art software package we have available.

Short run printing is very advantageous to businesses and individuals. There is no need for bulk orders to get cost savings in printing services. The modern technology used in short run digital printing makes it possible to produce even small quantities of 4 color printed products that are affordable.

ARTWORK & DESIGN SERVICES

A huge advantage with using Sphere UK is that we have a fantastic design team. Our designers have a wealth of experience designing for print which is why a large number of customers are taking advantage of our design services at sensible prices.

With all the print and design taking place under one roof here at Sphere UK, any issues between design and production can be dealt with without the need to contact you. No more 'he said, she said' conversations between designers and printers when problems arise. Our designers can follow your project through the printing stage, oversee the job being finished and check the finished article before it leaves the door.

If you're starting a new business and need a logo designed or a complete brand identity or re-brand, we can help you create the one that best represents you and your company.

FINDING THE RIGHT PRODUCT

There are literally thousands and thousands of products on the marketplace today. Certainly too many to list in this brochure. You will see that we have showcased a wide range of products across all of the categories. However if you are looking for a specific product or item and you can't see it in the brochure or on our website then please let us know.

ARRANGE A MEETING

One of our team can visit you at your premises at any time to discuss your requirements in detail or to go through samples and to discuss how we can help you with your future print requirements, promotions or events. We also have a spacious meeting room available at our premises so please let us know when you want to pop in. The kettle is always on!

I JUST NEED SOMETHING SIMPLE TO TELL PEOPLE WHAT I DO

If you just need something simple to show the world wide web you exist a brochure style site is just what you need.

Typically brochure sites include 4 to 10 pages of content which will introduce what you do, show off some previous work and tell customers how to contact you. Our websites also work across a host of different platforms as standard.

Call **01625 425676** or email info@sphereuk.co.uk for more information and pricing
